

Meet your ACCG Retirement Services plan's new mobile app

Your ACCG Retirement Services plan has a new mobile app available. See what to expect and get ready to download the app so you can keep your ACCG Retirement Services account within reach wherever you go.

What you can do on the app

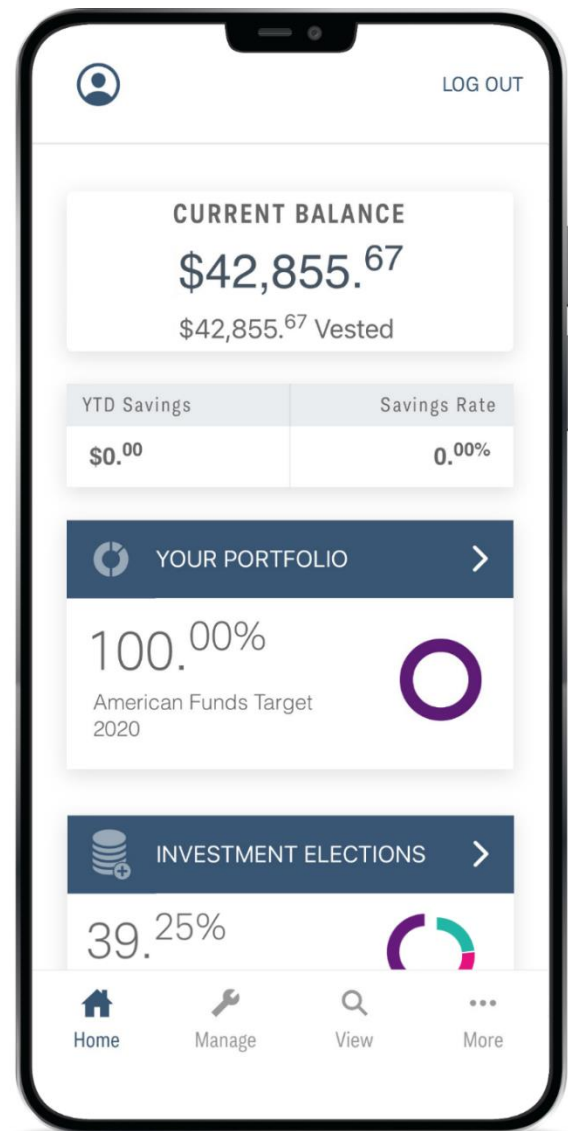

- Use biometrics (fingerprint or facial recognition) to log in conveniently and securely.
- Check your account balances, portfolio performance, and recent transactions.
- Manage your investment elections.
- Research investment performance.
- View educational videos about saving and investing principles.
- Manage beneficiaries and other profile information.

What you cannot do on the app

- Initiate fund transfers or realignments
- Register your new account
- View quarterly statements

How to Register a New Account

To get into your 401(a)/457(b) account you will go accgretirement.org. Click on “Access Your Account” and then “Register Your Account”. It will take you through all of the right steps. Once you have created your account you may use the same credentials to access the app.
